

ENVIRONMENTAL ASSESSMENT and FINDINGS OF NO SIGNIFICANT IMPACT AVAILABLE

Project Title: Marshall Airport Improvements; Project No.: #NFAPT00371.

The Alaska Department of Transportation and Public Facilities (DOT&PF), in cooperation with the Federal Aviation Administration (FAA), has finalized an Environmental Assessment (EA) and reached a Finding of No Significant Impact (FONSI) for a proposed project to upgrade existing facilities at the Marshall Don Hunter Sr. Airport in Marshall, Alaska. Improvements would include rehabilitating the runway, taxiway, apron, airport access road, snow removal equipment building (SREB), replace airport lighting and segmented circle and apply dust palliative. The purpose of the proposed project is to rehabilitate the airport infrastructure to meet FAA standards, reduce maintenance requirements, and reestablish safe and efficient airport operations. The runway has minimal gravel surfacing remaining, exposing the subbase, which increases safety concerns related to uneven surfacing and damage to aircraft tires.

The EA and FONSI can be viewed online at: <https://dot.alaska.gov/nreg/marshall-airport/>.
